

# Surveyors/Auditors Requirements

- ❑ Documents required to apply as **PMDS SURVEYOR-AUDITOR**:
  - A degree or other equivalent document, within a relevant field of marine engineering, naval architecture or physical science issued by a Recognized Institution, or
  - A qualification from a suitable marine or nautical institution, and relevant seagoing experience as a certified ship officer, one (1) year minimum of seagoing experience, or
  - At least three (3) years of experience in relevant areas to technical or operational aspects, such as:
    - Ship's classification and statutory surveys, or
    - Experience as a superintendent or ship manager, or
    - Suitable work experience relevant to procedures that he or she is authorized to perform.
  
- ❑ Proficiency in the English language commensurate with the scope of statutory certification and services.
  
- ❑ In the evaluation process of suitability and qualification of the applicant, the following may also be taken into consideration:
  - Experience of class-related work, as stated in the resume or other document, and
  - Previous statutory training [e.g., IMO (SOLAS-CSSE-CSSC-CSSR; MARPOL-ANNEX I-ANNEX II-ANNEX III, IV, V, VI; ILL, ITC; GAS; CHEMICAL), as stated on IMO Resolution A.789 (19), and R.O. Code, ANNEX I] given by a classification society or recognized organization. Modules not limited to:
    - Module 2A: Hull structure
    - Module 2B: Machinery systems
    - Module 2C: Subdivision and stability
    - Module 2D: Load line
    - Module 2E: Tonnage
    - Module 2F: Structural fire protection
    - Module 2G: Safety equipment
    - Module 2H: Oil pollution prevention
    - Module 2I: NLS pollution prevention
    - Module 2J: Radio
    - Module 2K: Carriage of dangerous chemicals in bulk
    - Module 2L: Carriage of liquefied gases in bulk
    - MARPOL Annex IV, Annex V, Annex VI
    - BWMC
    - ESP
    - IHM
    - IP Code
    - Passenger or Yacht Code
  
- ❑ To be authorized as an auditor under the requirements of ISM Code, the applicant shall be trained: (Refer to RO Code A.2.3.5)
  - All modules, with exception of 2E (tonnage), apply to the extent that they relate to an RO's ability to identify and evaluate the mandatory rules and regulations with which a company's safety management system and ships shall comply.
  - For this certification, the system shall comply with the qualification and training requirements for ISM Code assessors contained in the Guidelines on Implementation of the International Safety Management (ISM) Code by Administrations.
  
- ❑ To be authorized for other activities:
  - Completed a recognized ISPS auditor/CSO/SSO course.
  - Completed a recognized MLC, 2006 Training course.
  - Other specialized training courses in the IMO Codes and Conventions
